The Honourable Will Hodgman MP
Premier of Tasmania
Level 11, Executive Building
15 Murray Street
Hobart TAS 7000

Dear Premier,

In accordance with the provisions of the *Financial Management and Audit Act 1990*, I submit for tabling in the Parliament the Annual Report of the Office of the Governor of Tasmania.

The Report covers the period 1 July 2018 to 30 June 2019 and outlines the achievements and business of the Office of the Governor in providing effective and accountable support to the Governor of Tasmania.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'D Owen'.

David Owen
Official Secretary

MISSION

The Office of the Governor supports the Governor in the execution of her official and constitutional duties; administers the Governor's program of ceremonial and community activities; and administers the Government House Estate.

OBJECTIVES

The objectives of the Office of the Governor are to:

- provide a high standard of policy advice and administrative support to the Governor, including the organisation of her constitutional and ceremonial duties, and her program of community engagements;
- enable the efficient and effective interaction of the Office of the Governor with the Parliament, the Executive Government and the State Service;
- manage and operate Government House, its associated buildings and the Estate at a high level of maintenance and presentation.

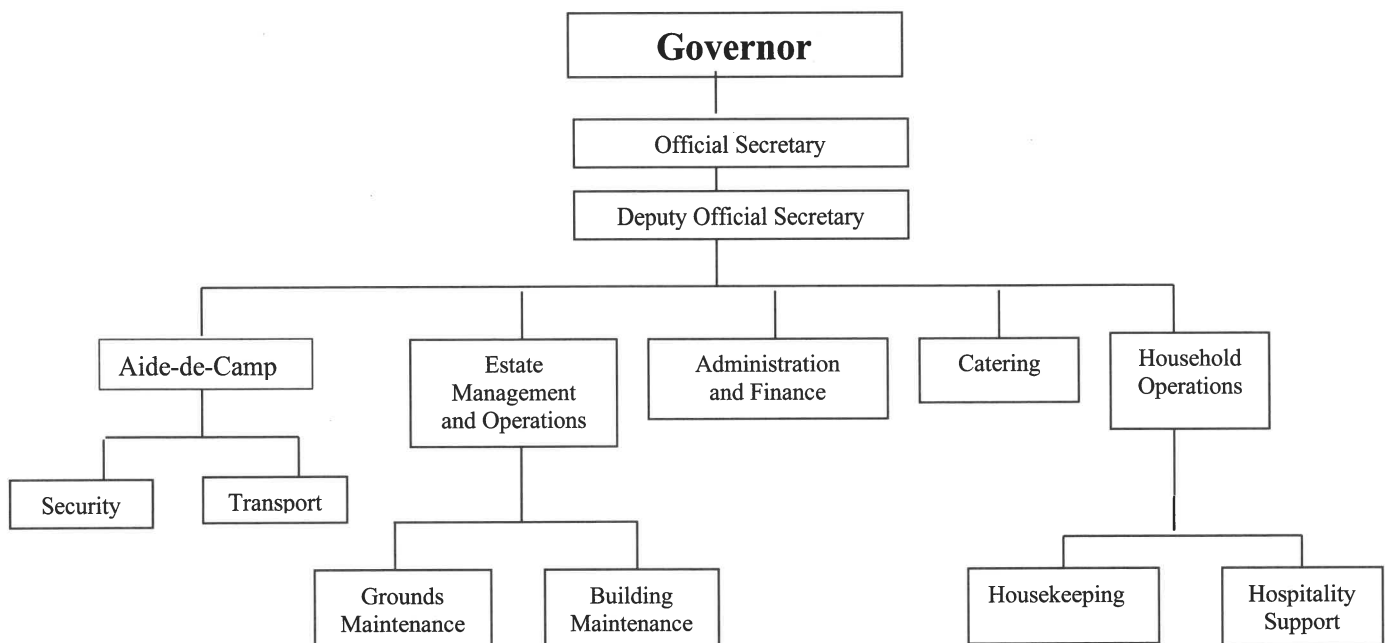

THE OFFICE OF THE GOVERNOR

Overview

For annual reporting purposes, the Office of the Governor is classified as an independent public sector entity. The Official Secretary, Head of Agency, is appointed by the Governor-in-Council under the *Governor of Tasmania Act 1982*, to assist the Governor in the performance of her duties.

The Official Secretary appoints and employs such persons as are considered necessary for the purposes of assisting the Governor and assisting in the management, administration and maintenance of Government House.

Organisational Structure

Her Excellency Professor the Honourable Kate Warner AC,
Governor of Tasmania and Mr Richard Warner

Functions of the Office

The role of the Governor is defined by the Letters Patent constituting the office, by legislation and by constitutional conventions. The Governor's function is to protect the constitution, secure the orderly transition of governments, facilitate the work of the Parliament and the Government, act as a non-political representative of the State and participate in the affairs of the Tasmanian community.

The Governor, on behalf of all Tasmanians, promotes Tasmania, recognises achievement, encourages worthwhile endeavour and reinforces the State's cultural identity and the values. A key indicator of the Office of the Governor's close links to Tasmanian society is in the number of organisations enjoying Vice-Regal patronage — 153 during the year in review.

The Office of the Governor supported Her Excellency and Mr Warner in carrying out all of their Vice-Regal functions; and supported the Lieutenant Governor and Mrs Blow and the Administrator and Mr Wood in carrying out their Vice-Regal functions.

Corporate Governance

The Official Secretary is responsible for managing the Office of the Governor in a way that promotes the proper use of State resources. These responsibilities and the key elements of the administrative framework for the Official Secretary as the Head of Agency are specified in the *Financial Management and Audit Act 1990*. The Official Secretary is responsible for establishing strategic priorities, allocating resources, and monitoring and reporting on team and individual performances. The Official Secretary convenes staff meetings and liaises with various State sector representatives. The Official Secretary monitors the implementation of employment policies and practices.

OUTPUT REPORT

Output 1.1 - Support of the Governor

The objectives of this Output Group are to support the Governor in carrying out her constitutional role in the operation of the Parliament and the Executive Government and her official role in the affairs of the Tasmanian community, and to preserve the Government House Estate.

The Output Group consists of the single Output entitled ‘Support of the Governor’, which has as its first objective the efficient and effective intercourse between the Office and the Parliament, the Executive Government, the State Service, the Honours Secretariat, the Commonwealth Government and the Tasmanian community. Secondly, it entails the preservation of the Government House Estate. Thirdly, it has the objective of cooperating closely with all arms of government and the community to promote the State of Tasmania to a wide range of interstate and international guests and other visitors to the State. The services provided under this Output Group are delivered by the Governor, her spouse, her support staff and the facilities of the Government House Estate.

Financial Performance

The total resourcing for Output 1 is set out in the table below. The Office budgeted for Output appropriations of \$4,168 million for recurrent services.

Consolidated Fund	2018–2019	2018–2019	Variation
	Budget \$’000	Actual \$’000	
Recurrent Services (Appropriation)	4,168	4,263	95

Performance Indicators for Output 1.1

Output 1.1 Support of the Governor	<p><i>Quality:</i> Satisfaction of the Governor and the organisations and individuals with whom the Office deals; meeting of heritage standards in the conservation and capital improvement of the Government House Estate;</p> <p><i>Quantity:</i> Management of the Governor’s participation in 535 official events at Government House and throughout Tasmania; maintenance of 15 hectares of grounds including 4.5 hectares of ornamental gardens, substantial vegetable and picking gardens and orchard and vineyard; Estate management, conservation and maintenance of Government House and seven cottages and ten service outbuildings.</p>
--	---

Qualitative Assessment

The key outcomes for Output 1.1 are that:

- all constitutional, statutory and representational activities are supported and meet the expectations of the Governor;
- household operations, including official hospitality, are conducted to the Governor's satisfaction and in a manner that reflects the nature and status of the Office;
- arrangements for Vice-Regal participation in external events are coordinated to the satisfaction of the Governor and in a manner that reflects the nature and status of the Office.

Personal and administrative staff supporting Output 1.1 assist the Governor with her representational activities, including the planning and organisation of events; relations with Government, the Parliament, the Executive Government, the State Service, the media, community groups and individuals; security and transport; assistance in the preparation of messages, speeches and correspondence. Advice is also provided on policy, precedent and practice.

Household operations and catering staff supporting the Output provide a high standard of catering services for official functions and a high standard of maintenance of Government House.

Staff supporting the Output in the management of the Estate maintain the grounds and buildings and other assets of the Government House Estate to a high standard.

The evaluation of performance is assisted by regular assessment and comments by the Governor, guests at official functions, members of the public, government, government bodies and community organisations involved with official events. The nature of these comments is consistently positive.

THE YEAR IN REVIEW

Constitutional

The Governor's primary role is to safeguard the Tasmanian Constitution and Tasmania's democratic parliamentary system of government. The *Constitution Act*, s10 provides that, 'The Governor and the Legislative Council and House of Assembly shall together constitute the Parliament of Tasmania.' It is the duty of the Governor to sign all the Bills that have been passed by the two Houses of Parliament in order to make them part of the law of Tasmania. During 2018–2019 Her Excellency or the Lieutenant Governor or Administrator gave Royal Assent to 53 Bills presented by the President or Deputy President of the Legislative Council of Tasmania.

In addition, the Governor exercises executive power, but (with rare exceptions) only on the advice of Ministers who are responsible to the Parliament. That advice is generally conveyed through the Executive Council. The Governor presides at regular meetings of the Council, giving the constitutionally required approval to give legal effect to many Government decisions. During 2018-2019 Her Excellency or the Lieutenant Governor or Administrator presided over 28 meetings of the Executive Council.

Administration in the absence of the Governor

The Lieutenant Governor of Tasmania, the Honourable Justice Alan Blow AO, administered the State from Monday 30 July 2018 to Monday 13 August 2018. The Administrator of Tasmania, the Honourable Justice Helen Wood, administered the State from Monday 16 July 2018 to Monday 30 July 2018.

Ceremonial

At Government House Her Excellency officiated at a variety of ceremonial events. In the year under review there were a total of 25 investitures and presentations. Investitures and presentations vary considerably. Those such as the Order of Australia Investiture are formal and attended by up to 200 guests, comprising friends and family of the recipients and official guests, the latter being announced into the Ball Room. The Australian Army Band Tasmania perform The Fanfare, Vice-Regal Salute and the Australian National Anthem. Smaller, less formal presentations take place in the Drawing Room; these often are events recognising long or distinguished services of individuals in organisations of which the Governor is Patron.

Kitchen and Hospitality Report

Government House continues to go quietly about the business of offering a wide range of community engagement programs which are much appreciated by those who visit and/or participate in activities. Here are just a few of the examples of what we have done in the last financial year in the kitchen:

Donations of Food

Government House regularly donates food for schools to be used in their Breakfast Programs and also to various charities such as Loaves and Fishes Tasmania and to fundraising functions for school kitchen gardens. Another example is the donation of produce and allowing the Executive Chef the time to help cook Christmas lunch for 250 guests for Rokeby Primary School.

Work Placement and School Tour Groups

Some 305 hospitality and kitchen studies students undertook work experience/observation studies in the kitchen on work placement during the 2018–2019 year. The students were accompanied by 39 staff, a dozen of whom chose to spend a day at different times over the year working on a Government House function as part of their professional development.

Visits included both school and local groups such as the Huon Producers' Network and Sprout Tasmania who participated in kitchen and vegetable garden tours where they tasted and discussed produce that had been processed and preserved in different ways. The groups experienced firsthand the operation of 'Paddock to Plate' and how this can be translated easily into school and home gardens.

Government House kitchen also played host to the kitchen and garden specialists from approximately 16 schools which participate in the Mona 24 Carrot Gardens project. The two groups, Fejoa and Tamarillo, were given lessons on biodynamic composting by Tara Edmondson, Deputy Estate Gardens Manager, along with talking all things fruit and vegetable with various Government House gardeners. They then picked produce and prepared several things for a shared lunch. The afternoon was spent learning different ways of utilising excess fresh produce with the Executive Chef and her staff.

Staff Professional development

Government House hosted the Executive Chef, Mr Garry Rodgers, from Government House Adelaide which was a really enjoyable visit as Garry was particularly enthusiastic and interested in our community engagement program. There were long discussions on how Government House in Adelaide could offer and be involved in similar projects.

The Executive Chef, as part of her personal professional development, is a board member of EatWell Tasmania and Volunteering Tasmania – both organisations of which the Governor is patron.

Gardens Report

Our dedicated on-site horticulturists continued to maintain and improve our beautiful gardens, with many new plantings and garden beds being developed. We rely heavily on our staff's expertise to maintain what is considered to be one of the best gardens in Australia.

The addition of specialised tours, including the Significant Tree tour, Garden Produce tour and our planned Winter Series of horticultural speakers, have increased visitor numbers in the gardens to record levels. The tours are jointly run by our wonderful volunteers and our own gardening staff.

The vineyard continued to produce good yields of grapes, which resulted in over 2,000 bottles of wine being produced for functions at Government House. Our production area and orchard also kept our

kitchen in good supply of fresh produce throughout the year. We also experienced a good quality supply of chicken eggs and honey. The cut flowers production has also enabled our florist to create beautiful floral displays within the House.

A landscape designer was engaged to draw up a design to redevelop our Quarry Pond, with new planting and stone walling already underway. In the year under review we have also been progressing with our recently developed tree management plan, which is a significant step forward for the future of our trees.

School groups continued to visit our gardens for educational tours and to participate in the 'Carols by Daylight' event, where more than 1,500 schoolchildren enjoyed singing Christmas carols in the Patriotic Paddock.

Monthly tours – State Rooms; Behind the Scenes; Furniture; Gardens; Garden Produce; Significant Trees

These are tours for which patrons book online and are conducted by Honorary Aides-de-Camp and Garden staff and Volunteers. They are consistently popular. A limit is set for numbers to ensure a high-quality experience. In the year under review 794 bookings were made. All revenue from the tour program is directed to the maintenance and preservation of the Government House Estate, in accordance with the *Government House Land Amendment Act 2017*.

The Government House Website

The website provides information on all aspects of the operation of the Office, ranging from the functions of the Governor, biographical information, a pictorial diary of Vice-Regal engagements and access to the texts of speeches, through to advice regarding protocol, the history of the House and a guide to the House and Gardens. The website is a valuable site for increasing awareness of the role and activities of the Office.

The home page of the website provides advice on events at Government House, for which tickets are able to be reserved online. In the year under review these included concerts and the guided tours of the State Rooms, Behind the Scenes, Furniture, Gardens, Garden Produce and Significant Trees.

Staff Enterprise Agreement and Staff Award

The conditions of service of all staff employed by the Official Secretary are determined by the Governor of Tasmania Staff Enterprise Agreement and the amended Governor of Tasmania Staff Award, both of which are being comprehensively renegotiated in consultation with the State Service Management Office of the Department of Premier and Cabinet and the Australian Workers Union and the Community and Public Sector Union Tasmania.

The Enterprise Agreement is designed to recognise the variety of employee positions and their specific tasks tailored to the unique working environment of the Office of the Governor. Emphasis is placed on flexible working arrangements to maintain an efficient and productive organisation, while striving to ensure appropriate job satisfaction for all staff.

Training and Development

Staff training is encouraged and funded where relevant to staff work and professional development.

Staff Development and Training	2016-2017	2017-2018	2018-2019
Number of individual staff who received formal training	4	17	10
Number of person days training	4	20	11
Expenditure on training	\$1,000	\$5,327	\$4,027

Industrial Relations

To promote an equitable and harmonious working environment, employees are encouraged to raise issues and concerns with their supervisors or the Official Secretary. Should the internal grievance-resolution system be unsuccessful in resolving a grievance or dispute, employees are able to have disputes reviewed by the Tasmanian Industrial Commission.

Work Health and Safety

The practices of the Office of the Governor are in accordance with the *Workers Rehabilitation and Compensation Act 1988*. The Office of Governor Workers Compensation Injury Management Program was given approval pursuant to S143(7) of the *Workers Compensation and Rehabilitation Act* in August 2010.

Following commencement of the *Work Health and Safety Act 2012* on 1 January 2013, the Office of the Governor commenced implementing workplace measures and standards to ensure compliance with the provisions of the Act. This included funds expended on staff development and training.

ASSET MANAGEMENT AND RISK POLICIES

Asset Management

The financial statements for 2018–2019 are reported on a cash and accrual basis, and they contain full details of the Office of the Governor’s asset-management policies as notes to the statements. The assets of the Office of the Governor have been valued in accordance with the Office’s accounting policies and procedures, and these values are disclosed in the statements, together with appropriate notes on valuation methods.

The Office of the Governor maintains a register of assets with a value of \$10,000 or more. In addition, other factors such as attractiveness and portability are considered when determining whether an asset should be recorded in the Office of the Governor’s asset register.

The major assets of the Office of the Governor are the buildings on the Estate, including Government House and its outbuildings, and the colonial and imported antique furniture in the main

building. These assets are classified as items of exceptional heritage significance. A complete valuation of the buildings and land was made as at 1 July 2015.

A full valuation of *objets d'art* and other heritage assets was completed in June 2015. A full valuation of heritage furniture was completed in June 2015.

Maintenance and Capital Programs

The following works were undertaken in 2018-2019:

Basement office space reconfigured and relocation of stationery room.

Ceiling in Arthur suite replaced and room repainted, along with Dukes suite ceiling being repainted.

Aide-de Camp office ceiling repaired and repainted.

Royal suite ceiling repairs, repainted walls and ceiling.

Ball Room, Main Hall, Staircase, Drawing Room repaired and repainted, where required.

Cottage 1 – repainted rear and downstairs rooms.

Cottage 7 – fence rebuilt / repaired.

New three door freezer cabinet installed in kitchen and extractor upgraded to replace existing.

Gas supply upgraded in Main House to increase capacity.

Main cattle yards rebuilt and fencing repaired.

Underwood garden sculpture completed.

Asset Management Systems

The Office of the Governor maintains a computerised database of assets, with regular updates to record acquisitions, transfers and disposals.

Acquisition and Disposal of Assets

The acquisition and disposal of assets is undertaken in accordance with the requirements of the *Financial Management and Audit Act 1990*.

Risk Management

The Office of the Governor recognises that risk management is an integral part of the management process and has a number of mechanisms for the management of risks associated with its activities.

Government Procurement

Support for Local Business: The Office of the Governor ensures that Tasmanian businesses are given every opportunity to compete for the provision of goods and services to the Office. It is the Office of the Governor's policy to support Tasmanian businesses whenever they offer best value for money.

SUPPLEMENTARY INFORMATION

Pricing Policy

The Office of the Governor has only limited activities for which the pricing of goods and services is required. On occasion, the Governor of Tasmania may agree to host or co-host events of significance on behalf of other Agencies. The Office of the Governor's pricing policy is based on full-cost recovery. In addition, in accordance with the provisions of the *Government House Land Act 1964* as amended by the *Government House Land Amendment Act 2017*, the Office of the Governor undertakes activities to raise revenue to be applied for the maintenance and preservation of the site and the residence.

Legislation Administered by the Office of the Governor

There are no statutes administered by the Office of the Governor.

Freedom of Information Requests

There were no requests in 2018–2019.

Tasmanian Audit Office

Independent Auditor's Report

To the Members of Parliament

Office of the Governor

Report on the Audit of the Financial Statements

Opinion

I have audited the financial statements of the Office of the Governor (the Office), which comprises the statement of financial position as at 30 June 2019 and statements of comprehensive income, changes in equity and cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, other explanatory notes and the statement of certification by the Official Secretary.

In my opinion, the accompanying financial statements:

- (a) presents fairly, in all material respects, the financial position of the Office as at 30 June 2019 and its financial performance and its cash flows for the year then ended
- (b) are in accordance with the *Financial Management and Audit Act 1990* and Australian Accounting Standards.

Basis for Opinion

I conducted the audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Office in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the financial statements in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code.

The *Audit Act 2008* further promotes the independence of the Auditor-General. The Auditor-General is the auditor of all Tasmanian public sector entities and can only be removed by Parliament. The Auditor-General may conduct an audit in any way considered appropriate and is not subject to direction by any person about the way in which audit powers are to be exercised. The Auditor-General has for the purposes of conducting an audit, access to all documents and property and can report to Parliament matters which in the Auditor-General's opinion are significant.

...1 of 3

My audit is not designed to provide assurance on the accuracy and appropriateness of the budget information included in the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of the Official Secretary for the Financial Statements

The Official Secretary is responsible for the preparation and fair presentation of the financial statements in accordance with Australian Accounting Standards, and the financial reporting requirements of Section 27 (1) of the *Financial Management and Audit Act 1990*. This responsibility includes such internal control as determined necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Official Secretary is responsible for assessing the Office's ability to continue as a going concern unless the Office's operations will cease as a result of an administrative restructure. The assessment must disclose, as applicable, matters related to going concern and the appropriateness of using the going concern basis of accounting.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Office's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Official Secretary.
- Conclude on the appropriateness of the Official Secretary's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Office's ability

to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusion is based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Office to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represents the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the Official Secretary regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Note 1 Office Output Schedules

1.1 Output Group Information

The Office only has a single output called Office of the Governor to fulfil its Outcome Statement of ensuring that it provides support of the Governor. The summary of budgeted and actual revenues and expenses for this Output are the same as in the Statement of Comprehensive Income. Therefore, the inclusion of a separate Output Schedule is not necessary.

Explanations of material variances between budget and actual outcomes are provided in Note 2 below. A reconciliation of the net result of the Output Group to the net surplus on the Statement of Comprehensive Income is not necessary as the Office only has one output group. For the same reason there is no separate reconciliation between the total net assets deployed for the Output Group to net assets on the Statement of Financial Position.

Note 2 Explanations of Material Variances between Budget and Actual Outcomes

Budget information refers to original estimates as disclosed in the 2018-19 Budget Papers and is not subject to audit.

The following are brief explanations of material variances between Budget estimates and actual outcomes. Variances are considered material where the variance exceeds the greater of 10 per cent of Budget estimate or \$40,000.

2.1 Statement of Comprehensive Income

	Note	Budget \$'000	Actual \$'000	Variance \$'000	Variance %
Revenue from Government	(a)	4,168	4,263	95	2
Sale of goods and services	(b)	55	123	68	124
Changes in Asset Revaluation Surplus	(c)	300	3,993	3,693	1,231

Notes to Statement of Comprehensive Income variances

(a) The Office received a Request for Additional Funding due to a continual increase in the Governor's program which has a flow-on effect through all aspects of Government House expenditure. A saving was also made in Reserved by Law funding due to the Governor being in Office for the majority of the year.

(b) The Office receives a modest income through the rental of four of the cottages on the Estate where the funds will be put back into the maintenance of the Estate buildings.

(c) Land and Buildings were revalued by the Valuer-General's Office via indexation as at 30th June 2019. The value of both Land and Buildings has increased considerably.

2.2 Statement of Financial Position

Budget estimates for the 2018-19 Statement of Financial Position were compiled prior to the completion of the actual outcomes for 2018-19. As a result, the actual variance from the Original Budget estimate will be impacted by the difference between estimated and actual opening balances for 2018-19. The following variance analysis therefore includes major movements between the 30 June 2018 and 30 June 2019 actual balances.

	Note	Budget \$'000	2019 Actual \$'000	2018 Actual \$'000	Budget Variance \$'000	Actual Variance \$'000
Cash and deposits	(a)	277	230	149	(47)	81
Plant and equipment	(b)	136	237	231	101	6
Land and Buildings	(c)	31,640	35,041	31,310	3,401	3,731
Infrastructure	(d)	-	32	-	32	32

Notes to Statement of Financial Position variances

- (a) The Office received more income this year from the rental of four cottages due to an increase in weekly rental amounts. It is also the first full year that rental income has been received from all four cottages.
- (b) The increase included the replacement of an industrial fridge and an industrial freezer that were more than 20 years old.
- (c) Land and Buildings were revalued by the Valuer-General's Office via indexation as at 30th June 2019. The value of both Land and Buildings has increased considerably.
- (d) The inclusion of infrastructure is for the value of the Vineyard which has become viable in producing wine within this financial year.

2.3 Statement of Cash Flows

	Note	Budget \$'000	Actual \$'000	Variance \$'000	Variance %
Appropriation receipts - recurrent	(a)	4,168	4,263	(95)	(2)
Other cash receipts	(b)	55	139	(84)	(153)
Other cash payments	(c)	(898)	(1,036)	138	(15)

Notes to Statement of Cash Flows variances

- (a) The Office received a Request for Additional Funding due to a continual increase in the Governor's program which has a flow-on effect through all aspects of Government House expenditure. A savings was also made in Reserved by Law funding due to the Governor being in Office for the majority of the year.
- (b) The Office received more income this year from the rental of four cottages due to an increase in weekly rental amounts. It is also the first full year that rental income has been received from all four cottages. A large portion of these funds are also carried over from previous years in order to be expended on maintenance of the Estate as required.
- (c) There was a very small increase in cash payments from actual cash payments last year however this amount was underbudgeted this financial year.

Note 3 Income from transactions

Income is recognised in the Statement of Comprehensive Income when an increase in future economic benefits related to an increase in an asset or a decrease of a liability has arisen that can be measured reliably.

3.1 Revenue from Government

Appropriations, whether recurrent or capital, are recognised as revenues in the period in which the Office gains control of the appropriated funds. Except for any amounts identified as carried forward, control arises in the period of appropriation.

Revenue from Government includes revenue from appropriations, appropriations carried forward under section 8A(2) of the *Public Account Act 1986* and Items Reserved by Law.

Section 8A(2) of the Public Account Act allows for an unexpended balance of an appropriation to be transferred to an Account in the Special Deposits and Trust Fund for such purposes and conditions as approved by the Treasurer. In the initial year, the carry forward is recognised as a liability, Revenue Received in Advance. The carry forward from the initial year is recognised as revenue in the reporting year, assuming that the conditions of the carry forward are met, and the funds are expended.

The Budget information is based on original estimates and has not been subject to audit.

3.2 Sale of goods and services

Amounts earned in exchange for the provision of goods are recognised when the significant risks and rewards of ownership have been transferred to the buyer. Revenue from the provision of services is recognised in proportion to the stage of completion of the transaction at the reporting date. The stage of completion is assessed by reference to surveys of work performed.

Note 4 Expenses from transactions

Expenses are recognised in the Statement of Comprehensive Income when a decrease in future economic benefits related to a decrease in asset or an increase of a liability has arisen that can be measured reliably.

4.1 Employee benefits

(a) Employee expenses

Employee benefits include, where applicable, entitlements to wages and salaries, annual leave, sick leave, long service leave, superannuation and any other post-employment benefits.

	2019	2018
	\$'000	\$'000
Wages and salaries	2,741	2,644

Superannuation – defined benefit scheme	7	18
Other post-employment benefits	27	-
Other employee expenses (<i>Training, uniforms, memberships</i>)	25	19
Total	3,320	3,134

Superannuation expenses relating to defined benefits schemes relate to payments into the Consolidated Fund. The amount of the payment is based on an employer contribution rate determined by the Treasurer, on the advice of the State Actuary. The current employer contribution is 12.95 per cent (2018: 12.95 per cent) of salary.

Superannuation expenses relating to defined contribution schemes are paid directly to superannuation funds at a rate of 9.5 per cent (2018: 9.5 per cent) of salary. In addition, the Office is also required to pay into the Consolidated Fund a “gap” payment equivalent to 3.45 per cent (2018: 3.45 per cent) of salary in respect of employees who are members of contribution schemes.

Total	289	56	28	9	-	382

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the agency, directly or indirectly.

Remuneration during 2018-19 for key personnel is set by the *State Service Act 2000*. Remuneration and other terms of employment are specified in employment contracts. Remuneration includes salary, motor vehicle and other non-monetary benefits. Long-term employee expenses include long service leave, superannuation obligations and termination payments.

Acting Arrangements

When members of key management personnel are unable to fulfil their duties, consideration is given to appointing other members of senior staff to their position during their period of absence. Individuals are considered members of key management personnel when acting arrangements are for more than a period of one month.

(c) Related party transactions

There were no related party transactions with Key Management Personnel (KMP) (including Cabinet Ministers), or their Close Family Members (CFM) or entities that are controlled or jointly controlled by KMP or CFM in 2019 (2018 \$0).

4.2 Depreciation and amortisation

All applicable Non-financial assets having a limited useful life are systematically depreciated over their useful lives in a manner which reflects the consumption of their service potential. Land, being an asset with an unlimited useful life, is not depreciated.

Key estimate and judgement

Depreciation is provided for on a straight-line basis, using rates which are reviewed annually. Depreciation periods are:

Plant, equipment	5 years
Buildings	100 years
Other - Piano	20 years
Outdoor Utilities	10 years
Scaffolding	15 years
Security System – Upgrade	10 years
Greenhouse	15 years
Convotherm Oven	10 years
Under carpet heating	15 years
Industrial Fridge & Freezer	15 years
Service lift	20 years

Heritage assets are not depreciated on the basis that they have an unlimited useful life.

Depreciation rates have been adjusted to reflect the life of each asset.

4.3 Grants and subsidies

Grant and subsidies expenditure is recognised to the extent that:

- the services required to be performed by the grantee have been performed; or
- the grant eligibility criteria have been satisfied.

A liability is recorded when the Office has a binding agreement to make the grants but services have not been performed or criteria satisfied. Where grant monies are paid in advance of performance or eligibility, a prepayment is recognised.

Note 5 Assets

Assets are recognised in the Statement of Financial Position when it is probable that the future economic benefits will flow to the Office and the asset has a cost or value that can be measured reliably.

5.1 Receivables

Receivables are recognised at amortised cost, less any impairment losses, however, due to the short settlement period, receivables are not discounted back to their present value.

5.4 Property, plant, equipment and motor vehicles

Key estimate and judgement

(i) Valuation basis

Land, buildings, heritage and cultural assets and other long-lived assets are recorded at fair value less accumulated depreciation. All other Non-current physical assets, including work in progress, are recorded at historic cost less accumulated depreciation and accumulated impairment losses. All assets within a class of assets are measured on the same basis.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The costs of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Fair value is based on the highest and best use of the asset. Unless there is an explicit Government policy to the contrary, the highest and best use of an asset is the current purpose for which the asset is being used or build occupied.

(ii) Subsequent costs

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Office and its costs can be

measured reliably. The carrying amount of the replaced part is derecognised. The costs of day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

(iii) Asset recognition threshold

The asset capitalisation thresholds adopted by the Office are:

Vehicles	\$10,000
Plant and Equipment	\$10,000
Land & Buildings	\$10,000
Heritage assets	\$10,000

Assets valued at less than \$10,000 are charged to the Statement of Comprehensive Income in the year of purchase (other than where they form part of a group of similar items which are material in total).

(iv) Revaluations

The Office has adopted a revaluation threshold of \$10,000 above which assets are revalued on a fair value basis. All heritage assets are subject to revaluation and are revalued every 3 to 5 years.

Land and buildings are revalued with sufficient regularity to ensure they reflect fair value at balance date. Indices are applied between formal valuations.

Assets are grouped on the basis of having a similar nature or function in the operations of the Office.

Revaluations are shown on a net basis.

Heritage and cultural assets consisting of:

- Paintings (Heritage assets) – Rosanna Cameron BA, Registered Valuer as at 30 June 2015. Based on fair market value.
- Furniture (Heritage assets) – A.F. Colman, Approved Commonwealth Government Valuer as at 30 June 2015. Based on replacement value.
- China, silver etc. (Heritage assets) – Craig Broadfield, Leven Antiques, 30 June 2015. Based on retail replacement value;
- Clocks (Heritage assets) – Peter Reading L.B.H.I. B.A.D.A. certified, as at 30 June 2015.

Land and Buildings were last fully revalued as at 1 July 2015. The Valuer General provides indexation factors for the intervening years based on fair value for existing use. Government House is a specialised, iconic heritage building. The property possesses significant intrinsic social and cultural attributes. The following were used in undertaking the valuation:

- AASB 13 “Fair Value Measurement”
- AASB 116 “Property, Plant and Equipment”
- Treasurer’s Instruction No 303 “Recognition and Measurement of Non-Current Assets”

(b) Reconciliation of movements (including fair value levels)

Reconciliations of the carrying amounts of each class of Property, plant, equipment and motor vehicles at the beginning and end of the current and previous financial year are set out below. (a) Carrying amount

	2019 \$'000	2018 \$'000
Vineyard		
At fair value (30 June 2019)	32	-
Total	32	-

Key estimate and judgement

The valuation was independently conducted by a valuer at Saunders and Pitt as at 30th June 2019. The valuation was based on fair value with the valuer researching the market with regard to vineyard sales throughout the entire State and by using direct comparison methods as the most appropriate basis of assessment of the added value of the vineyard.

The carrying value of the vineyard does not include assets held under a finance lease.

The Office has not recognised the vineyard in the Statement of Financial Position in 2017-18 due to the vineyard not being productive for a reliable measurement to be met. The Office has adopted a revaluation threshold of \$10,000 above which assets are revalued on a fair value basis. Vineyard infrastructure asset is subject to revaluation and is revalued every 5 years.

Note 6 Liabilities

Liabilities are recognised in the Statement of Financial Position when it is probable that an outflow of resources embodying economic benefits will result from the settlement of a present obligation and the amount at which the settlement will take place can be measured reliably.

6.1 Payables

Payables, including goods received and services incurred but not yet invoiced, are recognised at amortised cost, which due to the short settlement period, equates to face value, when the Office becomes obliged to make future payments as a result of a purchase of assets or services.

6.2 Employee benefits

Key estimate and judgement

Liabilities for wages and salaries and annual leave are recognised when an employee becomes entitled to receive a benefit. Those liabilities expected to be realised within 12 months are measured as the amount expected to be paid. Other employee entitlements are measured as the present value of the benefit at 30 June, where the impact of discounting is material, and at the amount expected to be paid if discounting is not material.

A liability for long service leave is recognised, and is measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date.

- The Office's motor vehicle fleet is managed by LeasePlan Australia Pty Ltd;
- Lease payments vary according to the type of vehicle and where applicable the price received for replaced vehicles;
- Lease terms for regular vehicles are either three years or five years. The truck is leased for a ten year term, with no change to the lease rate;
- No restrictions or purchase options are contained in the lease arrangements.

Equipment

Photocopiers

- Lease payments are determined at the time of the lease agreement and are paid quarterly;
- Lease terms are for four years with no change to the lease rate;
- No restrictions or purchase options are contained in the lease arrangements.

7.2 Contingent Assets and Liabilities

As at 30 June 2019, the Office had no known contingent assets or liabilities.

(a) Nature and purpose of reserves

Asset revaluation reserve

The Asset revaluation reserve is used to record increments and decrements on the revaluation of Non-financial assets.

Note 9 Cash Flow Reconciliation

Cash means notes, coins, any deposits held at call with a bank or financial institution, as well as funds held in the Special Deposits and Trust Fund, being short term of three months or less and highly liquid. Deposits are recognised at amortised cost, being their face value.

9.1 Cash and deposits

Cash and deposits includes the balance of the Special Deposits and Trust Fund Account held by the Office, and other cash held, excluding those accounts which are administered or held in a trustee capacity or agency arrangement.

Note 10 Financial Instruments

10.1 Risk exposures

(a) Risk management policies

The Office does not hold any derivative financial instruments.

The Official Secretary has overall responsibility for the establishment and oversight of the Office's risk management framework. Risk management policies are established to identify and analyse risks faced by the Office, to set appropriate risk limits and controls, and to monitor risks and adherence to limits.

(b) Credit risk exposures

The credit risk on financial assets to the Office which have been recognised in the Statement of Financial Position is generally the carrying amount, net of any provision for impairment.

The Office has no credit risk from Receivables and has had no impairment in the past,

The Office's maximum exposure to credit risk at reporting date in relation to each class of recognised financial assets is the carrying amount of those assets as indicated in the Statement of Comprehensive Income.

(c) Liquidity risk

Liquidity risk is the risk that the Office will not be able to meet its financial obligations as they fall due. The Office's approach to managing liquidity is to ensure that it will always have sufficient liquidity to meet its liabilities when they fall due.

The net fair values of accrued expenses are based on their carrying amounts.

The net fair values for trade creditors are approximated by their carrying amounts.

Note 11 Other Significant Accounting Policies and Judgements

11.1 Objectives and Funding

The Office's objectives are to support the Governor in the performance of her constitutional, administrative, ceremonial and community responsibilities by:

- providing a high standard of policy advice and administrative support to the Governor, including the organisation of constitutional and ceremonial duties, and her program of community engagements;
- facilitating the efficient and effective interaction between the Office of the Governor, the Parliament, the Executive and the State Service; and
- maintaining Government House estate.

The Office is structured to meet the following outcomes:

- safeguarding the integrity of the State's democratic system of government;
- promoting community involvement in government and understanding of the democratic process;
- promoting community understanding of the role of Governor;
- fostering activities in rural areas through speeches, visits, functions and other events;
- encouraging the involvement of young people in the community;
- supporting activities which promote a multi-cultural, diverse and tolerant society;
- stimulating culture and the arts;
- promoting the State's exports and its tourism industry; and
- protecting and maintaining the heritage values of Government House and its grounds.

The Office's activities are classified as controlled.

Controlled activities involve the use of assets, liabilities, revenues and expenses controlled or incurred by the Office in its own right.

The Office is a Tasmanian Government not-for-profit entity that is predominantly funded through Parliamentary appropriations. The Financial Statements encompass all funds through which the Office controls resources to carry on its functions.

11.2 Basis of Accounting

The Financial Statements are a general purpose financial report and have been prepared in accordance with:

- Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board; and
- The Treasurer's Instructions issued under the provisions of the *Financial Management and Audit Act 1990*.

The Financial Statements were signed by the Official Secretary on 13 August 2019.

Compliance with the Australian Accounting Standards may not result in compliance with International Financial Reporting Standards, as the AAS include requirements and options available to not-for-profit organisations that are inconsistent with IFRS. The Office is considered to be not-for-profit and has adopted some accounting policies under the AAS that do not comply with IFRS.

The Financial Statements have been prepared on an accrual basis and, except where stated, are in accordance with the historical cost convention. The accounting policies are generally consistent with the previous year except for those changes outlined in Note 11.5.

The Financial Statements have been prepared on the basis that the Office is a going concern. The continued existence of the Office in its present form, undertaking its current activities, is dependent on Government policy and on continuing appropriations by Parliament for the Office's administration and activities.

The Office has made no assumptions concerning the future that may cause a material adjustment to the carrying amounts of assets and liabilities within the next reporting period.

11.3 Reporting Entity

The Financial Statements include all the controlled activities of the Office. The Financial Statements consolidate material transactions and balances of the Office.

11.4 Functional and Presentation Currency

These Financial Statements are presented in Australian dollars, which is the Office's functional currency.

11.5 Changes in Accounting Policies

(a) Impact of new and revised Accounting Standards

In the current year, the Office has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board that are relevant to its operations and effective for the current annual reporting period. These include:

- *AASB 7 Financial Instruments: Disclosures* - the objective of this Standard is to require entities to provide disclosures in their financial statements that enable users to evaluate the significance of financial instruments for the entity's financial position and performance; and the nature and extent of risks arising from financial instruments to which the entity is exposed during the period and at the end of the reporting period, and how the entity manages those risks. The amendments to this Standard have resulted in a reconciliation being required where there is a reclassification of financial assets or liabilities resulting from the adoption of AASB 9. There is no financial impact. The Office does not have material financial assets and liabilities.
- *AASB 9 Financial Instruments* - the objective of this Standard is to establish principles for the financial reporting of financial assets and financial liabilities that will present relevant information to users of financial statements for their assessment of the amounts, timing, uncertainty of an entity's future cash flows, and to make amendments to various accounting standards as a consequence of the issuance of AASB 9. AASB 9 has replaced accounting for impairment losses with a forward looking expected credit loss approach. The Office has applied AASB 9 on a cumulative basis and has not restated comparative information which was reported under AASB 139. The Office does not have material financial assets and liabilities. There is no financial impact.

(b) Impact of new and revised Accounting Standards yet to be applied

The following applicable Standards have been issued by the AASB and are yet to be applied:

- *AASB 15 Revenue from Contracts with Customers* – The objective of this Standard is to establish the principles that an entity shall apply to report useful information to users of financial statements about the nature, amount, timing, and uncertainty of revenue and cash flows arising from a contract with a customer. In accordance with *2015-8 Amendments to Australian Accounting Standards - Effective Date of AAS 15*, this Standard applies to annual reporting periods beginning on or after 1 January 2019. Where an entity applies the Standard to an earlier annual reporting period, it will disclose that fact. It is anticipated that there will be no future financial impact.
- *2014-5 Amendments to Australian Accounting Standards arising from AASB 15* – The objective of this Standard is to make amendments to Australian Accounting Standards and Interpretations arising from the issuance of *AASB 15 Revenue from Contracts with Customers*. This Standard applies when AASB 15 is applied, except that the amendments to AASB 9 (December 2009) and AASB 9 (December 2010) apply to annual reporting periods beginning on or after 1 January 2018. This Standard will be applied when AASB 15 is applied. It is anticipated that there will be no financial impact.
- *2016-3 Amendments to Australian Accounting Standards - Clarifications to AASB 15* - The objective of this Standard is to clarify the requirements on identifying performance obligations, principal versus agent considerations and the timing of recognising revenue from granting a licence. This Standard applies to annual periods beginning on or after 1 January 2019. The impact is enhanced disclosure in relation to revenue. It is anticipated that there will be no financial impact.

- **AASB 16 Leases** – The objective of this Standard is to introduce a single lessee accounting model and require a lessee to recognise assets and liabilities. This Standard applies to annual reporting periods beginning on or after 1 January 2019. The standard will result in most of the Office’s operating leases being brought onto the Statement of Financial Position and additional note disclosures. The calculation of the lease liability will take into account appropriate discount rates, assumptions about the lease term, and required lease payments. A corresponding right to use asset will be recognised, which will be amortised over the term of the lease. There are limited exceptions relating to low-value leases and short-term leases. Operating lease costs will no longer be shown. The Statement of Comprehensive Income impact of the leases will be through amortisation and interest charges. The Office’s current operating lease cost is shown at notes 4.4. In the Statement of Cash Flows, lease payments will be shown as cash flows from financing activities instead of operating activities. Further information on the Office’s current operating lease position can be found at notes 7.1. There will not be a significant impact of the revised Standard on the Office’s Financial Statements. The only leases to be considered are the leasing of five motor vehicles.
- **AASB 1058 Income of Not-for-Profit Entities** - The objective of this Standard is to establish principles for not-for-profit entities that apply to transactions where the consideration to acquire an asset is significantly less than fair value principally to enable a not-for-profit entity to further its objectives, and the receipt of volunteer services. This Standard applies to annual reporting periods beginning on or after 1 January 2019. The impact is enhanced disclosure in relation to income of not-for-profit entities. The Office expects there to be no financial impact of the revised Standard on the Office’s Financial Statements.
- **AASB 1059 Service Concession Arrangements: Grantors** – The objective of this Standard is to prescribe the accounting for a service concession arrangement by a grantor that is a public sector entity. This Standard applies on or after 1 January 2020. The impact of this Standard is enhanced disclosure in relation to service concession arrangements for grantors that are public sector entities. The Office is not a Grantor, there will be no financial impact of the revised Standard on the Office’s Financial Statements.

11.6 Foreign Currency

Transactions denominated in a foreign currency are converted at the exchange rate at the date of the transaction. Foreign currency receivables and payables are translated at the exchange rates current as at balance date.

11.7 Rounding

All amounts in the Financial Statements have been rounded to the nearest thousand dollars, unless otherwise stated. As a consequence, rounded figures may not add to totals. Amounts less than \$500 are rounded to zero and are indicated by the symbol “...”.

11.8 Taxation

The Office is exempt from all forms of taxation except Fringe Benefits Tax, Goods and Services Tax and WET (Wine Equalisation Tax). The Office is liable for WET but qualifies for full rebate.

11.9 Goods and Services Tax

Revenue, expenses and assets are recognised net of the amount of Goods and Services Tax, except where the GST incurred is not recoverable from the Australian Taxation Office. Receivables and payables are stated inclusive of GST. The net amount recoverable, or payable, to the Australian Taxation Office is recognised as an asset or liability within the Statement of Financial Position.

In the Statement of Cash Flows, the GST component of cash flows arising from operating, investing or financing activities which is recoverable from, or payable to, the Australian Taxation Office is, in accordance with the Australian Accounting Standards, classified as operating cash flows.
